Wokingham	Wokingham	Exchange Only Lines

Notes

The list of cabinets and exchange only lines have been scheduled for survey between April and July 2014

Exchange only lines will require a new telephone and fibre cabinet to be installed close to the local exchange

A cabinet survey does not guarantee an upgrade in coverage as it is subject to the outcome of the survey

Broadband speed is dependent on a number of factor and can't be confirmed until cabinets are connectec

To access superfast broadband, you will probably need to subscribe to a new 'broadband package' once the cabinet has been upgraded - it will not happen automatically
